IMAGINE MY WORLD

WHAT YOU NEED

Plain paper, pencils/pens

HOW TO PLAY

1. Each player is given a piece of paper.
2. The players are all given a turn to name an object which they might see outside or in nature e.g. tree, car, house, sky scraper, dolphin, star etc.
3. The children have to build a scene using only the objects which are called out.
4. The next object cannot be called out until all players have finished drawing the object named previously.
5. The game finishes when all players have named an object.
6. When the scenes have been completed the children walk around looking at each other's art work.
