

Our value this month is:

Courage

Reading

Please make sure you listen to your child read at least 3 times a week and record this in their reading records.

For those children not yet bringing a reading book home, please make sure you are reading to them as frequently as possible.

This Week's Highlights

In **Nursery** we have put the finishing touches to our Christmas songs and performed them for the recording really well. I'm sure the families will be so proud when they watch it (link will be shared soon) We have had lots of fun creating a calendar and Christmas card to bring home – the calendar photos are amazing!

In **Reception**, we started the week learning about Christingles and traditions of Christmas. Later in the week, we completed our first ever Nativity. The children amazed the audiences and impressed the staff with their confidence, speaking, singing, and acting. We are so proud the children!

In **Year 1** we have created the most marvellous mince pies to share with our grown-ups when they come to watch our Christmas Sing Along. We can't wait for you to taste them! In science we carried out our experiments which we designed ourselves to make sure our class Teddy can stay dry outside. We have enjoyed listening to our class story The Snowman.

This week **Year 2** had an absolutely amazing time performing the nativity to their adults this week. We were so impressed with their courage, resilience, determination, and performance capabilities. The children have also enjoyed continuing their learning about the history of flight by learning about Bessie Coleman and creating their sculptures in art.

In **Year 3** we have continued our work on magnets, testing different materials for their magnetic properties. We have also finished out Excitable Edgar stories, we are very proud of them!

In **Year 4** we have worked really hard to complete our geography learning and produced some fabulous tourist information leaflets about the Spanish region of Catalonia. We have also enjoyed completing a science experiment to investigate how a switch works.

In **Year 5**, we have really enjoyed designing, making, and evaluating our DT structures. The children have all produced some exciting playground equipment and their ideas and creativity has been wonderful to see. We have also shown resilience and have completed our letters from the perspective of a character from our class novel Private Peaceful.

Year 6: We are so proud that we have performed our sign language skills to our families. We were amazing!! We have investigated osmosis and diffusion in science and we have begun our fraction work in maths. Another busy week!
